**Subject:** RE: Request for CAFO numbers DUE: Oct 3

Two operations declined to apply for renewal, claiming they do not discharge. So now we only have 38 active permits (including 2 expired permits with pending applications).

If that number is supposed to represent every new permit we ever issued, then it is off by quite a bit, and I have not been reporting correctly. We have had several operations decline to renew their permits, and NPRs were issued instead. So let me know if I need to revise that number to reflect all the new permits we ever issued.

Cathy

Thanks Cathy.

Why did the total NPDES permits issued decrease from 40 at the June update to 38 in the attached update?

Hi Julianne,

Here are Ohio's numbers. I don't anticipate any changes between now and end of September. Any questions, let me know.

Cathy

**Subject:** Request for CAFO numbers DUE: Oct 3

Hello everyone,

It's time again to ask for CAFO numbers. Please update the attached table [2013 EOY CAFO permit actions] with your CAFO permit numbers through September 30, 2013. These numbers will be reported to EPA management to reflect each state's CAFO permit actions during federal FY13. Note, the numbers included in the attached table are the numbers reported by each state this past June or July, please update where applicable.

As a reminder, the yellow highlighted columns should include total numbers and the columns not highlighted should include numbers for applications and actions in federal FY13.

**PLEASE RETURN YOUR UPDATE NO LATER THAN COB, OCTOBER 3.**

Please contact me if you have any questions.

Thanks

*julianne*
